Preface

The following explanations apply throughout the publication:

Subject-matter workers in extension are generally shown under the respective department or division of the college.

Certain institutions use the academic title for experiment station workers as for personnel engaged solely as teachers.

Published since 1889.

To locate an individual:

1. In index, find name, code numerals, and State where employed.
2. Find State listing of names (see headings at top of each page).
3. Use code numerals beside name in index to locate individual's department in State list (use code numbers at top of each page as guide).
4. Individual is listed in department with same code numerals as those beside name in index.
